ABOUT HUA HIN

Hua Hin (Thai หัวหิน) is a famous beach resort town in Thailand and the first in the peninsula. The white pristine beach stretch was discovered during the railroad exploration in 1909 during the reign of King Rama V. Known for the warm, soothing climate along with its serene beach, Hua Hin soon became a vacation destination for the kings, the royal households and noble families. In the old summer times, Hua Hin was a retreat for families to relax and enjoy summer activities together, a place for high tea and ballroom dance, an opportunity for the glammers to see and be seen.

Nowadays Hua Hin continues to be a popular destination for families, honeymooners, golfers, and business events. The attractions of a contemporary seaside resort are combined with the historical charm. Hua Hin has just celebrated its 100th anniversary and still conserves the relaxing ambience of the past.
